PROJECTS

Anihelp
AniHelp is a portal for all the animal lovers across the world and Animal Welfare.There are many innocent
helpless animals out there who craving for the love. At the same time, there are many people who want to
have pets but don't get enough time or place to care for a pet. So this app help us by uniting these lost pet
lovers and pets across the world! with the help of NGO's

TourSpot
A Web application will help the tourists to filter the places category wise, which will provide more
clarity as per their interests and can visit them as per their choice/interest

Ticket Booking
Used JFrame concept in Java and created a app structure for online theatre ticket booking
